“I am an intellectual property attorney focused on patent prosecution.”

Eric received a B.S. in Mechanical Engineering from Kettering University in 2018. Prior to joining Howard & Howard’s Intellectual Property Intern Program, Eric worked as an engineering co-op at an automotive powertrain supplier and an automotive chassis supplier, gaining exposure to design, testing, and manufacturing settings. He also worked as an IP co-op assisting with tasks such as reviewing invention disclosures, conducting patent/trademark searches, reviewing PTO office actions, and drafting patent claims. Eric attended the University of New Hampshire’s Franklin Pierce School of Law where he earned his J.D.
