“I am passionate about acquiring and protecting intellectual property rights for my clients.”

Mr. Kallie focuses his practice on the preparation and prosecution of patent applications in a variety of arts, including mechanical, electromechanical, and composite material technologies, including powered medical devices, structural reinforcements, composite building materials, medical biotechnology, and consumer products. He draws on his technical background and love of technology to advise his clients.

Before joining Howard & Howard, Mr. Kallie worked at a boutique intellectual property firm counseling a number of clients from solo inventors to multinational corporations with patent procurement in the United States and abroad.
