“I am passionate about innovation, problem-solving, and helping inventors protect their ideas through thoughtful and strategic patent work. ”

Garrison is a registered patent agent with the United States Patent and Trademark Office. With a strong foundation in mechanical engineering and over eight years of experience in the automotive industry, Garrison brings a unique blend of technical expertise and legal insight.

Prior to joining Howard & Howard’s IP Intern Program, Garrison held multiple engineering roles at Ford Motor Company, where he specialized in On-Board Diagnostics (OBD) calibration, software validation, and powertrain systems architecture. His work involved developing simulation models, calibrating engine performance, and leading data-driven validation efforts for production vehicles.
